

Abby the Student

Abby has **four** sisters, **but** he is the only son in his family.

Abby takes a **bus** to class. His friend Eyob also takes the **bus**.

Eyob tells him a **funny** story on the **bus**.

$$\begin{array}{r} 25 \\ +45 \\ \hline 70 \end{array}$$

In mathematics class, they add **25 plus 45** to find the **sum**. (The **sum** is 70.)

Back home, Abby makes a model of a **hut** and **bushes** like the ones in Ethiopia. His dad likes it a lot.

Abby gets a **hundred** shekels from his dad. At a shop, he **buys** a bag and **useful** things for a **student**. He **buys** a frog **umbrella**.

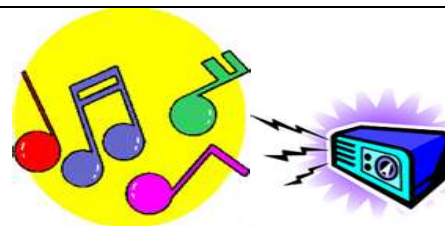

He **puts** all the things in the bag and **pulls** it back home.

2 of Abby's sisters **study** at the **university**. Abby hopes to **study** at the **university** also.

He is **hungry** at **supper**. He has a **pudding**.

As **usual**, he listens to classical **music** at bedtime on his radio.
