

What Is Love?

Adele: "Mom, what is love?"
Mom: "That's a lovely question, but finish eating your food first."

Adele: "OK mom I'm done, look my plate is empty. Now can you please tell me what love is?"

Mom: "When a person behaves lovingly to someone or something it means he loves them. When we love, we give and receive from one another. Love keeps us bonded and committed to each other."

Adele: "so love is an action?"
Mom: "No, love is a strong emotion we have towards a person and sometimes is recognized by an action."

Adele: "Can we touch emotions?"
Mom: "Such beautiful questions, you remind me the conversations I had with my mother when I was your age."

Emotions are feelings within the body and can't be separated from the body"

Lesson 77, Target letter: o sounds like (ŏ)

by: Leah Levy

Adele: "Can we feel love in the tummy?"

Mom: "Yes we can feel love in different parts of the body. But the source of all of our feelings comes from above the tummy, from the heart."

Adele: "Wow love sounds amazing. Thank you mom!"

Mom: "You're welcome my sweet darling."

Adele: "I love you!"
