

## My Life as a Witch and How I Became Rich

Yes, I am a witch. No broom, no frog. I have a cat like all witches do, some spiders in my rooms, pans in the kitchen and I absolutely love the full moon. Does that make me a witch? Just read this story....

I used to be a teacher. I started my business in witchcraft from scratch, when I retired from teaching.

I watched people and listened. I know what people need to feel good. What is missing in their lives. People call it witchcraft, but is it really?

I showed them you can stretch the mind to find ways to be happy and successful. You can teach them to be brave and take risks.

This was a match!! My wisdom was of value, it fetched me as much as 1000 dollars a month and it helped people.

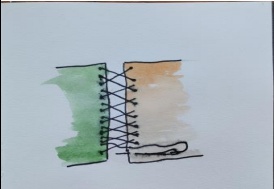

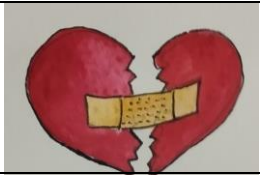

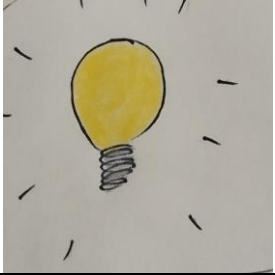

I think you can be a "witch," too. How?

Watch people. Listen. Catch on to their strengths, help people cope and patch them up. Stitch their souls. Then tell them they can pay you what they want. If they become happy- they will pay a lot. This is how I became rich, and why they call me a witch. Do you think this is witchcraft?
