

My Dream Job

What do you want to be when you grow up?

I love music. I want to be a musician and compose new pieces.

I love maths. I want to be a mathematician and discover new theories.

I love people. I want to be a physician and cure all the illnesses.

I love babies. I want to be an obstetrician and help women give birth.

I want to be a magician and make you all disappear!!!

**Remember: when the root word ends with c, the suffix for that job is -cian!*
